BECOME A MARINE SCIENTIST FOR A WEEK!

TAKE PART IN
THE BALTIC SEA
SCIENCE CAMP
2012!

Photos: IOW,
Szczecin University,
Klaipėda University

GOTLAND

When and where will the science camp take place?

Dates: 17 – 26 August 2012

Location: Lithuania, Smiltynė on the Curonian Spit

KLAIPĖDA

SMILTYNĖ

Baltic Sea

KALININGRAD

GDANSK

Who may take part and how can I apply?

- 25 school students between 15 and 19 years old from Sweden, Denmark, Lithuania, Poland, Germany, and other regions in close vicinity to the Southern Baltic Sea who share an interest in marine scientific issues and are skilled in English.
- Five school teachers from the countries listed who teach science classes at secondary schools and are skilled in English.

If you have an **interest in science** and feel drawn to the marine environment, you might be interested in becoming more familiar with what marine science is all about. What does it feel like to **work in an international team** taking samples, analysing them, and trying to find answers to relevant questions?

Try out being a marine scientist for all in all **ten days**, and getting to know other young science freaks from Sweden, Denmark, Lithuania, Poland and Germany.

Apply for the Baltic Sea Science Camp 2012!

Participants will be granted a full scholarship so that the Science Camp 2012 is **free of cost**.

The Curonian Spit is surrounded by the Baltic Sea and the Curonian Lagoon. It is a unique place created by the sea and wind, distinguished for its beautiful sand dunes and green pine forests. Since 2000, the Curonian Spit has been on the UNESCO's World Heritage List.

Application deadline:
15 May 2012
