# BECOME A MARINE SCIENTIST FOR A WEEK!

TAKE PART IN THE **BALTIC SEA SCIENCE CAMP 2010**  
ON BOARD OF THE SAILING SHIP LOVIS!

Are you **interested in science**? Do you love the sea? Then get familiar with what marine science is all about! Experience how it feels to work on the sea in an international team, taking samples and analysing them, and trying to find answers to relevant questions. **Apply for the Baltic Sea Science Camp 2010** on board of the sailing ship LOVIS! Participation is **free of costs**.

**Dates:** 11 September – 20 September 2010

**Location:** Germany, sailing from Greifswald once around the island of Rügen to Rostock.

## Who may take part?

- Twenty school students aged 15-19 from Sweden, Denmark, Lithuania, Poland and Germany interested in marine science and skilled in English.
- Five school teachers from the countries listed, who teach science classes at secondary schools and are skilled in English.

**Application deadline:  
15 July 2010**

**Application forms and  
further details under:  
[www.southbalticweblab.eu](http://www.southbalticweblab.eu)**
